### ALLEN HAS FALVEY OUTCLASSED

Norwich Boxer Puts It All Over New London Man-Bill Collins Meets Tall Feather-New London to Norwich Run Postponed.

Pawtucket A. C. tonight were certainly class in every way, bringing the specators to their feet every minute. The star bout of the evening was a handicap wrestling match between Bill Collins of Westerly and Tall Feather, the Manitoba Indian. The Indian was substituted for Charlie Rogers of Fall River, whose ear was in such a bad condition he was unable to go on. Rogers was to make 155 pounds ringside, with Collins making the same, for a finish bout, the best two in three falls. Collins made the weight after much hard training, but when Rogers arrived and told Bill he couldn't wrestle under any conditions, it was finally agreed to put on Rogers' partner, Tall Feather, the Indian agreeing to throw Collins, three times in an hour. Collins, not wainting to disappoint the crowd, agreed to the match, showing his game spirit, which took the crowd.

Tall Feather outweighed Collins about 25 pounds, but after wrestling an hour the best he could do was to get one fall and was very lucky to get that, as Collins pushed him every minute and very nearly got the Indian two or three different times with a half-nelson and bar and arm hold. Collins' stellar work brought applause after applause as he escaped from the Lindian's holde as fast as he could get the colling and high individual three lands and the collins and high individual three lands are applause as he escaped from the Lindian's holde as fast as he could get lands and lands are applause after applause as he escaped from the Lindian's holde as fast as he could get lands and lands are applause after applause as he escaped from the lindian two or three different times with a half-nelson and bar and arm hold. a neck lock and arm hold in 37 minutes.

The semi-final, a boxing bout of six rounds, was between Billy Allen, the Norwich whirlwind, and Buck Falvey, the pride of New London. It was one of the fastest and cleverest bouts seen in many moons. The boys were well matched, each weighing about the same, Falvey having a few pounds the best of it. Abe the Newsboy introduced the boys, and brought a big hand with his witty remarks. Abe challenged Bill Collins for a match to come off in a few weeks and will to come off in a few weeks and will bet Collins can't throw him twice 'n an hour. Collins took him up on

an hour. Collins took him up on the spot.

The boys then prepared for the go, starting right at each other from the tap of the gong and mixing it every minute. The first two rounds were about even, with Allen having a shade the better of it. After that Buck did not have a look in. It was all Allen every minute, showing Buck clearly outclassed although he was game to the core, and ready to mix at all times, He got the worst of it in every mix. Allen having him at his mercy with his cleverness and stiffer punches and certainly showed the crowd he could go and get the best at his weight. Billy got a big hand from the crowd at the finish.

ADVANCES NOT WELL HELD. Impending Holiday Affects Stocks-Money Market Developments.

ket was affected today by the impending holiday and the inclination of professional operators to close up contracts with a two days' closed interval to go through. The open contracts proved to be largely on the bear side of the market, which was to be expected in view of the prolonged liquidation of long accounts which has been going on quite steadily ever since the first of the year. The day's advances were not well held.

Much was made in the speculation of the intention of President Taft to make a speech in New York tomorrow bearing on the administration's attitude towards the corporation problem. The intimation was broadly conveyed that this speech was to be of a reassuring character to capital and finance. Deprecation of alarmist assertions of the consequences to follow a possible decision by the supreme court in favor of the government in the American Tobacco and Standard Oll cases was said to be expected of this speech. The havoc to be created in the affairs of corporations by the acts to follow these decisions has been a favorite instrument of the bears in the stock market for weeks. A suggestion that anything might be done during the holiday interval to take the ground from under their feet by removing apprehension on the point was sufficient to cause uncovered shorts a feeling of anxiety.

Developments in the money market

Developments in the money market were calculated to stimulate an investment demand for securities. The growing abundance of banking resources in foreign markets induced expectation of a prolonged period of ease. One result of this development was seen in the cabled reports that New York was again borrowing large sums of money in London, supposed to be designed for employment in the stock market. London was a buyer of stocks in New York today and some demand was reported also from Europe. French investors are said to be showing interest in our bond issues. An offset is thus supplied to the trade balance against us.

is thus supplied to the trade balance against us.

Discussion of supposed trade recession dropped out of sight in presence of the upward movement of stocks. There was a decline in the prices of copper in London in spite of yesterday's favorable statistics of the copper producers' association. The copper industrials here turned strong and were prominent in the day's advance. Rumors were renewed of progress in the projected merger of the great producing interests. Buying of iron by the United States Steel corporation below the recent market price was under some suspicion of a purpose to below the recent market price was under some suspicion of a purpose to steady the market for sentimental effect on buyers of finished product. The announced stock dividend distribution by the Pullman company had been foreshadowed in the advance in the price of the shares.

DENTISTRY, which is a branch of surgery has advent of surgery, has advanced won-derfully in the past few years, in fact, although Dentistry does not get the publicity given the great science of surgery, its wonders are no science of surgery, its wonders are no less. The ideal replacement of one's lost teeth would be the natural growth of new ones to take their place—such as happens when children lose their first or baby teeth. The lost teeth of the adult can now be restored by the science of dentistry in such a manner that it is impossible under ordinary circumstances, to detect the restored teeth from the original or natural ones. The Restoration Method is not one of artificial plates, crowns or bridges—that undesirable artificiality is done away with—and there is no noticeable evidence of the dentist's work in your mouth. Your restored teeth seems to grow out of your gums just as do your natural teeth. It is a wonderful improvement over the old method of replacing lost teeth with false once. Dr. King does his Restoration work at a consistently low price. Before having any teeth extraoted, see Dr. King about naturally and painlessly restoring your teeth. It Pays.
